#### Notes :

- The Dashboard is ready waiting for your approval to completely get rid of STRAPI
- Any error or bug fixes are handled by the development team with no costs
- All the prices given are compatible with market prices ( PS : Indian are not a reference )

#### Near Future:

- Any Future Project or maintainability needs to be discussed and included with a full document that includes all requirements
- any project should be demanded at least before a month in order to work smoothly and not work in a hurry and avoid bugs and major problems
- the Main website needs to be refactored ( keeping same design ) and migrate the Dashboard
- we will need to buy an SSL certificate for production
- we will need a testing environment to avoid future problems and reclamations

==> Unfortunately we won't be available at 100% next couple of weeks because of finals exams but in any emergency we will be glad to help Thank you for your understanding.
